GDPR article 17¹

Article 17 of the Data Protection Regulation states that in several cases the data subject has the right to have personal data about himself deleted by the data controller. This means that when a data subject contacts a data controller with a request to have information about himself deleted, which the data controller processes, the data controller may be required to comply with this request, even if the deletion deadlines set by the data controller have not yet been reached.

Signature

I confirm that I want to have my personal information deleted.
